¹ ADM for district sponsored charter schools is included in this figure. Detail district pages in section II provide total ADM for district schools only. Detail pages in section III provide ADM for each district sponsored charter schools.

² ADM for state board and charter board sponsored charter schools

DISTRIBUTION OF SCHOOL DISTRICTS BY ADM AND SIZE

The distribution of district population is shown in the graph above. The 22 largest districts in the state have over 60 percent of the students while 77 districts have only about 1 percent of the student population. For a further breakdown of districts by type and county, see page 12.

The fall enrollment for 2001-02 was 835,404. A breakdown of school district enrollment by racial and ethnic background is included on page 13.

DISTRIBUTION OF CHARTER SCHOOLS BY ADM AND SIZE

The distribution of the charter schools population is shown in the graph above. Eighty-two percent of the charter schools in the state have less than 300 students and 50 percent of the charter school student population. Twelve percent of the charter schools in the state have between 300 and 600 students and 24 percent of the charter school student population. Six charter schools, with 15 percent of the charter school students, have between 600 and 1000 students. There are now two charter schools with over 1000 students, and they have 12% of the charter school student population. For a further breakdown of charter schools by type and county, see page 12.

The fall enrollment for 2100-02 was 37,041. A breakdown of charter school enrollment by racial and ethnic background is included on page 14.
